

ISO 9001:2008

Motor Power 355kW
Input Speed 1500rpm

Rigid MonoBlock body and strong structure to provide long lasting high performance

Nominal Power: 900kW
fs: 2,54

Gears 21NiCrMo6 heat treated and ground to reach 6 quality grade with crowing and tip relief profile modification

Ratio: 11,6

SKF 24144
Spherical Roller Bearing
(220x370x150)
C_{dyn}: 2120kN

F_a **F_r**

Output Speed: 129 rpm

High Radial and Axial Loads

Impact 1500mm away from shaft shoulder

Sphero graphite cast iron body maintaining the highest level of weight/endurance value
(ISO:EN-GJS-500-7)
